ABOUT ME

I motivated to study and ready to get a pices of advice. I learnt HTML, CSS and JS. I worked with node Js on practical lessons at the university. Like to make logic for programs, but need to refresh definitions of special words. Don't have bad habits and I am opened for new knowledge.

There you can find few projects on Node JS: NodeJs Project

EDUCATION

2017-2021	**Speciality: System Administrator** Poltava Politechnic College
2021-Today	**Speciality: Informational Technology of Design** Kharkiv Airspace University
